# PROGRAM

## FRIDAY 25 NOVEMBER

- 08.45 Registration of participants
- 9.00 The digital approach in the management of bone defects using GBR techniques (Dr. Emanuele Randellini and Dr. Paolo Calamai)
- 
- 10.30 Coffee break
- 
- 11.00 The digital in implantology, reality and future developments (Dr. Giuseppe Galvagna)
- 
- 13.00 Lunch break
- 
- 14.30 The pterygoid implant as a solution to severe upper atrophy (Dr. Roberto Conte)
- 
- 16.00 Coffee break
- 
- 16.30 Pterygoid implants in guided surgery, a new digital approach to the solution of extreme atrophies (Dr. Alberto Prati)
- 
- 18.00 Conclusions of the first day

## SATURDAY 26 NOVEMBER

- 9.00 Wound healing in periodontal and implant surgery, guided since the first hours (Prof. Andrea Pilloni)
- 
- 10.30 Coffee break
- 
- 11.00 Occlusion in prostheses: what to do and what not to do (Dr. Sandro Prati)
- 
- 13.00 Closing of the course

# THEORETICAL COURSE

## ADVANCED TECHNIQUES IN ATROPHIES MANAGEMENT

25-26 NOVEMBER 2022  
COURSES ROOM OF THE ISOMED  
TRAINING AND RESEARCH CENTER,  
VIA MEZZAVIA 126 -  
35020 DUE CARRARE (PD)

## PURPOSE OF THIS COURSE

Atrophy, maxillary and mandible, is one of the main factors that the dentist must face for a correct implant-prosthetic rehabilitation. The purpose of this Congress is to give operators a wide range of diversified solutions to address it, such as the GBR technique for the management of bone defects using a new digital approach, guided software planning with implant insertion using surgical guides to obtain a prosthetic and aesthetically predictable precision. Or the insertion of particular implants such as Pterygoids and Zygomatics, which exploit the basal bone pillars of the skull, in the event that it is not possible to perform a GBR or do not want to wait the necessary time that this technique requires.

## SPEAKERS

### Dott. Emanuele Randellini

Graduated in Dentistry and Dental Prosthetics with full marks from the University of Siena in 2003. He obtained a II degree Master in Fixed Prosthetics

and Science of prosthetic materials, a Master of II degree in Periodontology at the University of Siena and II degree Master in Zygomatic Surgery and severe maxillary atrophy at the University of Pisa. He specialized in advanced implant reconstructive surgery at the USPE Federal University of San Paulo in Brazil and subsequently obtained the specialty in implant and bone reconstructive surgery at the Saõ Leopoldo Mandic University. He is a student of Prof. Mauro Merli and Prof. Istvan Urban in Budapest, of which he carries out advanced bone reconstructive surgery techniques.

### Dott. Paolo Calamai

He graduated in Dentistry and Dental Prosthetics at the University of Florence in 2004.

He attended the 2nd level Master in Prosthetics of the University of Florence and became Research Fellow and then Contract Professor for the University of Florence in the Degree Course of Dentistry and Dental Prosthetics from 2006 to 2011. He took part to countless advanced courses in: Endodontics, Conservation, Prosthetics, Periodontology. From 2008 to 2014 he attended and trained in Implant and Bone Reconstructive Surgery in Brazil, first in Florianopolis at IPENO and then at the Uninove University in Sao Paulo.

Specialization in 2019 in Implant and Bone Reconstructive Surgery at the San Leopold Mandic University of Sao Paulo Brazil.

Since 2015 he is the Founder and Director of the "GBR Academy" Scientific Cultural Society. He is the author and co-author of Scientific Articles on national and international journals. He works as a freelancer at his practices in Florence and Romagna.

### Dott. Sandro Prati

Adjunct Professor at the School of Specialization in Orthodontics at the University of Milan where he is also Tutor at the Degree Course in Dentistry and Dental Prosthetics. He is a hospital doctor attached to U.O.C of Maxillofacial Surgery and Ontostomatology IRCCS at the Policlinco of Milan. Author of the books "Clinical Gnathology and Craniomandibular Disorders" (2006) and "Cardiomandibular Disorders" (2017) as well as speaker in about 400 courses and conferences and freelance in Goito (MN).

### Dott. Roberto Conte

Graduated in Medicine and Surgery at the University of Padua in 1977, he began his professional career as an implantologist in 1981, following the professional school of Tramonte, Muratori, Pasqualini - Linkow and Branemark.

A lecturer in the Specialization Course of implantology at the University Claude Bernard, Lyon 1 and in the Specialization Course of implantology at the University Jean Monnet, Saint Etienne. He is the author of a number of papers and has been speaker at numerous conferences.

### Dott. Alberto Prati

Surgeon, Specialist in Odontostomatology, he began his implantology practice in 1990 with the Branemark school and continues with courses on The sinus lift techniques of Simion, Saha Jovanovic and Prof.

Abejan of the University of Brest. He's author of a number of papers, most of them published in the Journal of Prosthetic Dentistry, on implant prosthesis.

Speaker on the use of radiological software for implant insertion at the II degree Master in Zygomatic Implantology, University of Pisa.

### Dott. Giuseppe Galvagna

Graduated in Dentistry in 1993 at the University of Catania, he practices as freelance professional in his own practice since 1999. Member of SIOCMF since 2018, he obtained the Master in Computer Guided Surgery at the Guglielmo Marconi University in 2017; in the same year became an active member of the Friends of Brugg. Appointed Deputy Regent of ICD for Sicily in 2016, he is the author of several papers published in specialized Italian journals and speaker at various congresses.

### Prof. Andrea Pilloni

Graduated in Medicine and Surgery and specialized in Odontostomatology at the University of Rome, Tor Vergata. He follows Postgraduate in Periodontology (Precept Program) and Diploma of Master of Science in Oral Biology at the University of California, Los Angeles (UCLA) in 1993. He obtained the qualification as Full Professor in 2017. Associate Professor of Periodontology in the Faculty of Medicine and Dentistry, is currently the holder of the Chair of Periodontology at the Master's Degree Course in Dentistry and Dental Prosthetics of the University of Rome "Sapienza", of Clinical Periodontology at the Degree Course in Dental Hygiene, Director of the Two-year Master's Degree in Periodontology at the same University and medical director of the Policlinico Umberto I in Rome. Winner of the 1998 H. Goldman Prize for Basic Research of the Italian Society of Periodontology of which he is Active Member and National Coordinator of Study Clubs for Dental Hygienists. Member of the Medical Academy of Rome. He practices private activity at the GroundPerio Center located in Via Veneto, Rome.
